

## Information for EFOY Pro customers

### New status signal on EFOY Pro Systems For EFOY Pro 800/800 Duo and 2400/2400 Duo

EFOY Pro Systems 800/800 Duo and 2400/2400 Duo issue a note, if the installed firmware is older than **a year**. Decisive is the **date of programming** of the firmware. This note is issued as a display message. On devices connected to a modem it is issued as SMS, E-Mail or message on a web portal. In the firmware 17.06 this date was exceeded 12.12.2013.

The following message is shown on the display:

On the start screen it is indicated by an  :

In the menu, which can be selected by pressing the button „menu“, there is a selection under „note“.

By pressing „OK“ the note message can be shown again. This icon remains on the display until a newer firmware is installed.

The EFOY Pro Fuel Cell can be operated as usual. It is just a note.

Learn more about the update and how it can be installed on <http://www.efoy-pro.com/page/efoy-pro-firmware-update>.

**This note will be removed with the next update to firmware 17.08 (Approx. firmware release in April 2014).**

### Operation with GSM Modem

A connected modem generates a “note” that will be delivered by SMS or E-mail, depending on settings. If using a web portal this note might also appear.
