Fuel Cell Models and Accessories

1. New catalog "Fuel Cell Models and Accessories 2005" with many exciting new products and some significant price reductions on existing products is available now. Please download your copy from our "[download](#)" section or visit our onlineshop at <http://www.udomi.de/shop/english/fuelcellshop-e.htm>

Here a view examples of our new products

HyRunner GT (Hydrogen Model Car)

This model of a hydrogen car is equipped with a reversible fuel cell with which the car can produce its own hydrogen when an external voltage is applied.

Junior Stack

Fuel cell stack, number of cells subject to customer specifications (max. 10). Easy mounting and unmounting of cells. The stack will be delivered fully assembled.
