**Software update for EFOY devices**

SFC is offering software update for EFOY devices with serial numbers starting xxx-642-xxxxx and higher. This latest software update will improve EFOY performance and reduce fuel consumption. The update can be done using the EFOY-Updater or the latest version of the SFCEUT software and Interface Adapter IA1. If you are interested to update your EFOY system, please send an email with your EFOY serial number to [sales@udomi.de](mailto:sales@udomi.de)
