Fuel Cell Systems and Components

EFOY Remote Power (Industry)

Direct Methanol fuel cell systems available in 600 (available August 2006), 1200 and 1600 Wh/day versions (replacement for SFC A50 system).

The EFOY fuel cell is fully automatic. EFOY's automatic charge control continuously monitors the battery status, as it powers your electrical equipment. If the battery's voltage drops below the level pre-programmed by the user, the fuel cell activates, charges the battery, and then automatically shuts itself off.

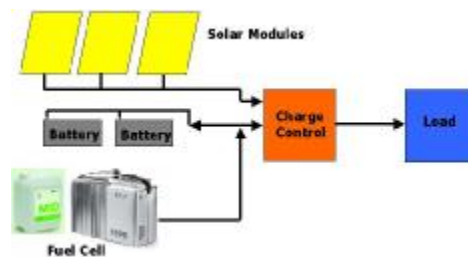

EFOY and solar cells – the winning combination
Combining EFOY and solar cells is a powerful solution for off grid applications such as remote measuring systems, video surveillance or traffic control.

Part#: EFOY-600-I/EFOY-1200-I/EFOY-1600-I
Price: EUR 1.725,-/2.585,-/3.016,-

New: EFOY Fuel Cell Systems

Fuel Cell – PV- Hybrid System

SFC A50 – now with 10% discount, limited supply only

We offer our local stock of SFC A50 units with a 10% discount. Offer includes the following accessories:

- Mounting plate for SFC A50
- Battery connection cable
- Exhaust tube
- Process media
- Operation Manual
- Methanol Cartridge holder for M5 and M10
- Spare fuses for SFC A50
- RS232 data communication interface

Part#: SFC-A50-0 (12V/80 Watt Peak)
Price: EUR 2.325,-
