EFOY-PRO-Series

NEW – Duocartswitch

Increased autonomy and fully emptied cartridges

Using the Duocartswitch 2 Methanol cartridges can be connected to a single EFOY-PRO device.

Advantages:

- Increased autonomy (longer service interval before Methanol cartridges have to be replaced)
- Cartridges get completely emptied before being replaced
- When used with the GSM-2 modem the user will be informed via SMS or Email when DCS1 switches from a new Methanol cartridge.
