Fuel cell systems and components

EFOY-OUTDOOR

Fuel cell and solar power combination

With EFOY-OUTDOOR we provide you with a reliable and affordable power solution for a wide range of off-grid applications such as surveillance camera systems, telecommunication equipment, measuring stations etc. The OUTDOOR box can be configured to your individual needs. Some sample configurations are shown below:

EFOY-OUTDOOR-BASE Box

- Hybrid solution (fuel cell & solar power)
- 1 x EFOY 1600 (65 Watt)
- 1 x M10 Methanol cartridge (9kWh)
- 1 x 90 Ah battery (for buffering and peak power demand)
- 2 x solar module CIS-80 with 80Watt peak (installed outside the box)
- 12V output voltage

EFOY-OUTDOOR-XL Box

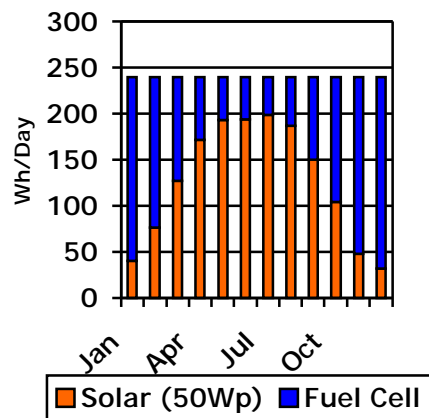

- 2 x EFOY 1600 (2 x 65 Watt)
- 2 x M10 Methanol cartridge (2 x 9kWh)
- 2 x 90Ah battery
- 12 or 24V output voltage configuration possible

Contact us for a configuration that meets your needs.
